

Energy Transition

FULFILLMENT

Transitioning energy for everyone

We believe that the future of energy lies in renewable resources, and the only way to achieve our clean energy ambitions is to provide a straightforward and affordable transition path for all. Together, we can make this goal a reality through grassroots trade ally connections in our communities, increased access to resources and equitable savings every step of the way.

We lead the transition to a sustainable energy future.

From increasing demand response-ready devices to supporting fleet electrification, we provide streamlined and efficient fulfillment processes to make sure every home in your community has equal access to carbon-neutral energy sources.

1 Retail

Help your community save right at the register with in-store rebates, promotions and educational resources.

2 Midstream

Making clean energy available for all requires thoughtful effort. That's why we connect our utility clients to distributors and community-based organizations to accelerate the adoption of key energy transition programs.

3 eCommerce marketplace

Our mobile-friendly marketplace gives your customers quick and easy access to instant savings on high-efficiency energy transition products. Plus, with rebate validation and income verification built-in, you'll be able to deliver savings in near real-time.

4 Trade allies

Wherever you need support, our network of experienced trade allies is there to provide their expertise, professionalism and compassion to your energy transition program.

5 Partners

Our partners support us in protecting our planet by expanding our energy transition practice to reach more people while lowering costs at all levels of your program.

CLEAResult ATLAS™

Our unifying technology solution at a glance:

- ✓ Universally compatible management platform
- ✓ Vastly increased speed to market
- ✓ Near-limitless program scaling and expansion
- ✓ Streamlined third-party integration
- ✓ Cost-effective program delivery
- ✓ Increased average savings per customer
- ✓ Improved customer engagement and satisfaction

Key areas of focus

Assessment

Customizing energy transition assessments to be approachable and easy for utilities and their customers.

Installation

Rolling up our sleeves to make the switch to cleaner energy products, storage and generation solutions.

Management

Continuously improving the transition to sustainable energy sources at every turn.

We change the way people use energy, *for our future.*
